COMMERCIAL INFORMATION	
Date of Application:	
Desired In Service date:	

SITE INFORMATION	
Land Location (LSD):	
Detailed map showing proposed plan location:	<input type="checkbox"/> Attached
Site Plan showing the arrangement of major equipment:	<input type="checkbox"/> Attached
Has an AUC Application Already been Submitted	<input type="checkbox"/> if yes provide Proceeding Number

OPERATING CHARACTERISTICS	
Is it intended for the facility to sell electric energy to the Power Pool?	
Will the facility consume electric energy services from the electric system? If yes State operating load in kw & kwhr	
Maximum generation:	
Operating power factor at the site:	

GENERATOR	
Type (Synchronous, Induction, Inverter):	
Prime Mover Type (Wind, Gas,...):	
Nominal Rating (kW, kVA, volts):	
Single or Three Phase:	
Facility Transformer Utility-Side Winding (e.g. Wye, Wye-Grounded, Wye-Impedance-Grounded, or Delta):	
Facility Transformer Customer-Side Winding (e.g. Wye, Wye-Grounded, Wye-Impedance-Grounded, or Delta):	
Acceptable minimum power factor if unity is not possible (must be between 90% and unity, e.g. 97%)	
Desired FortisAlberta feeder to be assessed. Otherwise, FortisAlberta will assess feeder with the lowest cost upgrades to connect the generator.
